

It's fun! It's Free! It's for Everyone!

From the sky to the ocean floor and all that is between, Sea & Learn on Saba invites you to explore nature and enhance your environmental awareness.

Saba, a tiny Caribbean island, just 28 miles from St. Maarten, offers a unique annual event: *Sea & Learn on Saba*. For years, Saba, known as "The Unspoiled Queen" has been recognized for its nature & conservation efforts. The dedication of Saba's businesses to environmental education has evolved into an award-winning annual event.

Every day and every night in October a variety of naturalists, scientists and academics in fields ranging from sharks and seahorses to hummingbirds and orchids provide multimedia presentations and 'hands on' field work. Whether your reason to visit Saba is hiking, diving or just relaxing, the timing of the daily Sea & Learn events is scheduled to allow visitors and locals alike to enjoy their day on Saba. A "happy hour" environment is provided at different venues so that dinner plans are easily accommodated after the nightly sessions. Field and research project scheduling varies and will be announced in advance.

www.seaandlearn.org

Sea & Learn on Saba is a non-profit foundation that brings together the local community, diverse nature experts and visitors to understand the value of nature, both worldwide and locally on Saba.

Sea & Learn's objective is to reinforce the importance of protecting nature and educate the potential safe-keepers in order to sustain viability of Saba's eco-tourism product and other environments throughout the world.

All events are open to the public and free of charge.

To participate in Sea & Learn on Saba, simply come to Saba in the month of October.
